PROFESSIONAL SUMMARY

As an Operations Team Leader and Lean Six Sigma Green Belt, I bring over 8 years of experience in leading BPO and high-volume call center operations. My career includes progressive leadership roles at Concentrix and Accenture, where I successfully coached and developed teams of up to 34 associates across rotational shifts. I have a proven track record of sustaining 98%+ contractual SLA compliance, reducing Average Handling Time by 25%, and enhancing 90-day competency from 78% to 94%. My expertise in process optimization and automation, particularly with the Microsoft Power Platform, has led to the creation of tools that save over 120 leadership hours weekly and significantly reduce routing errors. I am adept at managing customer service operations, ensuring service performance meets targets, and leading teams with strong operational skills. Fluent in English and experienced in working within a 3-shift rotation schedule, I am committed to driving efficiency and excellence in BPO environments.

CORE COMPETENCIES & TECHNICAL SKILLS

- BPO Industry Experience
- Customer Service Operations
- Leadership
- Team Management
- Operational Skills
- English Proficiency
- Rotational Shift Management
- Performance Coaching
- Process Improvement
- Lean Six Sigma

WORK EXPERIENCE

Feb 2025 — Present

Enterprise Solutions Architect & Pre-Sales Lead, Self-Employed / Independent Contractor — Remote

- Closed RM 70,000+ in signed SOWs by converting discovery sessions into delivery contracts using rapid React/TypeScript prototypes and Dataverse architectures.
- Led a 3-person technical pod; managed sprint milestones, billable capacity, and QA to deliver client solutions on schedule with no scope overruns.
- Scoped and secured executive sign-off for modernization of 365+ legacy applications across 28 business units to Microsoft 365/SharePoint/Dataverse, defining a phased commercial roadmap.
- Expanded account value by 35% through workflow optimization and cross-selling integrations and ongoing automation support while sustaining 30–35% project margins.
- Accelerated sales velocity by delivering working POCs within 72 hours, shortening enterprise sales cycles by ~2 weeks.

May 2023 — Apr 2025

Operations Team Lead , Concentrix CVG — Kuala Lumpur, Malaysia

- Led daily floor operations for a BPO team of 9 to 34 associates across rotational shifts, owning rostering, real-time adherence, and shift handovers to sustain 98%+ contractual SLA compliance and keep abandonment below target.
- Reduced Average Handling Time (AHT) by 25% through Six Sigma DMAIC controls and targeted coaching; improved 90-day competency from 78% to 94% via structured 1:1s and performance action plans.
- Built PulseTrack & SmartFlow (Power Apps, Power Automate) to automate reporting and SLA escalations, eliminating ~90% of manual reporting friction, cutting admin workload by 60–80%, and saving 120+ leadership hours weekly.
- Served as a tier-2 escalation SME and implemented CS Resolver (NLP routing), reducing routing errors by ~50%, cutting misclassification 40–60%, and accelerating resolution by 30–50%.
- Coached agents through data-driven QA calibration, improving audit pass rates and creating internal promotion pipelines to SME and QA analyst roles.

Jul 2017 — Nov 2022

Service Delivery Operations Senior Team Lead, Accenture — Kuala Lumpur, Malaysia

- Progressed through four operational roles from Data Analyst to Senior Team Lead, supervising up to 34 associates across 7 global markets.
- Partnered with site leadership to analyze attrition root causes and execute career development initiatives, achieving top-quartile associate retention and engagement scores.
- Provided SME support for escalated cases and deployed Power BI shift telemetry dashboards, cutting SLA escalation turnaround from 4 hours to under 45 minutes and lifting throughput by 15%.
- Chaired Weekly Business Reviews (WBRs) using Six Sigma DMAIC root-cause analysis to remediate performance issues and exceed contractual KPIs.

KEY AUTOMATION & OPERATIONS PROJECTS

KEY AUTOMATION & OPERATIONS PROJECTS

PulseTrack & SmartFlow Operations Suite | Concentrix — Power Apps, Power Automate, Power BI, SharePoint, Dataverse

- Designed and deployed a shift governance, real-time attendance monitor, and coaching tracker for a 34associate call center, improving tracking accuracy to 98%.
- Automated SLA escalation triggers, handoffs, and reporting; eliminated >90% of manual reporting friction, cut administrative workload by 60–80%, and saved 120+ leadership hours weekly.
- Delivered telemetry dashboards that supported 98%+ contractual SLA compliance and reduced Average Handling Time by 25% through Six Sigma DMAIC controls.

CS Resolver — Intelligent Escalation & NLP Routing

Concentrix — AI Builder, NLP classification, Power Automate, SOP knowledge routing

- Built an intelligent ticket categorization and SOP retrieval engine to assist associates with complex escalations.
- Reduced initial routing errors by ~50% and misclassification by 40–60%, accelerating issue resolution by 30–50% across global segments.
- Scaled automation and knowledge routing practices that lowered escalation turnaround times and improved firstcontact resolution.

EDUCATION

2013 — 2017

Bachelor of International Business Management (Honours), Universiti Utara Malaysia — Sintok, Kedah, Malaysia

- - Full Merit International Scholarship Recipient
- 3-Time Dean's Academic List Award
- Special Leadership Award
