PROFESSIONAL SUMMARY

Dual-track professional bridging high-performance Operations Leadership (8+ years directing BPO squads, rotational shifts, and Six Sigma DMAIC optimization) with hands-on Enterprise Software Engineering & Solutions Architecture. Successfully transitioned from operations management to building full-stack software and Power Platform systems after discovering programming at Accenture in 2022 (2-Time Innovation Competition Winner). Directs high-stakes operational pods of up to 34 agents sustaining 98%+ contractual SLA compliance while simultaneously architecting enterprise solutions that retired 365+ legacy databases, validated 7,878 YAML screens in CI, and eliminated $960,000/yr in software licenses. Fluent in English and skilled in uniting frontline operations with modern cloud software engineering.

CORE COMPETENCIES & TECHNICAL SKILLS

BPO Operations & Team Leadership	Microsoft Power Platform (YAML v3, PCF)
Rotational Shift Management (3 Shifts)	React 19, TypeScript & Cloud Firestore
Six Sigma Green Belt (DMAIC Controls)	Power Automate & Microsoft Dataverse
Contractual SLA Governance (>98%)	SharePoint Online & Microsoft 365
Average Handling Time (-25% AHT)	Python 3.11+ (AST Verification, Playwright)
QA Scorecards & Calibration Governance	PulseTrack & CS Resolver NLP Routing
Talent Coaching & Retention (<5% Attrition)	GAMP 5 Category 4 & 21 CFR Part 11

WORK EXPERIENCE

Feb 2025 — Present | **Enterprise Solutions Architect & Pre-Sales Lead, Self-Employed / Independent Contractor** | **Remote**

- Closed RM 70,000+ in signed SOWs by converting discovery sessions into delivery contracts using rapid React/TypeScript prototypes and Dataverse architectures.
- Led a 3-person technical pod; managed sprint milestones, billable capacity, and QA to deliver client solutions on schedule with no scope overruns.
- Scoped and secured executive sign-off for modernization of 365+ legacy applications across 28 business units to Microsoft 365/SharePoint/Dataverse, defining a phased commercial roadmap.
- Expanded account value by 35% through workflow optimization and cross-selling integrations and ongoing automation support while sustaining 30–35% project margins.
- Accelerated sales velocity by delivering working POCs within 72 hours, shortening enterprise sales cycles by ~2 weeks.

May 2023 — Apr 2025 | **Operations Team Lead & Systems Automation Architect, Concentrix CVG** | **Kuala Lumpur, Malaysia**

- Led daily floor operations for a BPO team of 9 to 34 associates across rotational shifts, owning rostering, real-time adherence, and shift handovers to sustain 98%+ contractual SLA compliance.
- Reduced Average Handling Time (AHT) by 25% through Six Sigma DMAIC controls and targeted coaching; improved 90-day competency from 78% to 94% via structured 1:1s and action plans.
- Built PulseTrack & SmartFlow (Power Apps, Power Automate) to automate reporting and SLA escalations, eliminating ~90% of manual reporting friction, cutting admin workload by 60–80%, and saving 120+ leadership hours weekly.
- Served as a tier-2 escalation SME and implemented CS Resolver (NLP routing), reducing routing errors by ~50%, cutting misclassification 40–60%, and accelerating resolution by 30–50%.
- Coached agents through data-driven QA calibration, improving audit pass rates and creating internal promotion pipelines to SME and QA analyst roles.

Jul 2017 — Nov 2022 | Service Delivery Operations Senior Team Lead & Enterprise Workflow Lead, Accenture | Kuala Lumpur, Malaysia

- Progressed through four operational roles from Data Analyst to Senior Team Lead, supervising up to 34 associates across 7 global markets.
- Discovered software development in 2022; selected to Accenture Innovation Team and won 2 consecutive internal innovation hackathons/competitions building custom Power Apps and automated Power Automate workflows.
- Provided SME support for escalated cases and deployed Power BI shift telemetry dashboards, cutting SLA escalation turnaround from 4 hours to under 45 minutes and lifting throughput by 15%.
- Chaired Weekly Business Reviews (WBRs) using Six Sigma DMAIC root-cause analysis to remediate performance issues and exceed contractual KPIs.
- Partnered with site leadership to analyze attrition root causes and execute career development initiatives, achieving top-quartile associate retention and engagement scores.

LANGUAGES

Bahasa Indonesia (Native) Bahasa Melayu (Fluent) English (Professional Working)

KEY ENTERPRISE & OPERATIONS PROJECTS

IOI Corporation SHE Enterprise Modernization | Lead Solutions Architect

Power Apps Canvas YAML v3, Power Automate, Dataverse, SharePoint Online, Python AST

- Modernized 365+ legacy Lotus Domino DBs across 28 business units to M365, saving $960,000/yr in licensing fees with zero factory downtime and 7,878 screens validated in CI.

PulseTrack & SmartFlow Operations Suite | Concentrix CVG

Power Apps, Power Automate, Power BI, SharePoint, Dataverse Telemetry

- Automated shift governance, real-time attendance, and coaching tracking for 34-agent floor, saving 120+ leadership hours weekly and sustaining 98%+ contractual SLA.

CS Resolver — Intelligent Escalation & NLP Routing | Concentrix CVG

AI Builder, NLP classification, Power Automate, SOP Knowledge Routing

- Engineered intelligent ticket categorization engine, reducing misclassification by 40–60% and cutting routing latency by ~50%.

EDUCATION

2013 — 2017 | Bachelor of International Business Management (Honours), Universiti Utara Malaysia | Sintok, Kedah, Malaysia

- Full Merit International Scholarship Recipient · 3-Time Dean's Academic List Award · Special Leadership Award
