Overview

Ali Akhmad Fauzie an Indonesian who is a highly effective operations leader with over six years of experience, passionate about enhancing operational efficiency, driving innovation, and transforming complex, manual processes into more effective workflows. Based in Kuala Lumpur, Malaysia, Ali excels at leading high-performance teams, fostering growth, and maintaining low attrition rates. His core skills include critical thinking, process automation, coaching, leadership, and client service delivery. Ali holds a Bachelor's Degree in International Business Management from Universiti Utara Malaysia and is committed to continuous learning, with numerous certifications in AI, Generative AI, and Microsoft Power Platform.

Key Operational Responsibilities

- **People Management:** A seasoned leader adept at guiding high-performance teams, Ali has led over 30 team members across 7 markets and nationalities at Concentrix, expanding one project business team from 9 to 34 members. As a Service Delivery Ops Sr Team Lead at Accenture, he led teams of 20-25 members. He consistently fosters team growth, maintains low attrition rates (below 5% over four years), and facilitates cross-market collaboration for effective communication and problem-solving, as evidenced by initiatives like the "Identity Projection-Team Engagement Initiative" that boosted employee engagement by 50%.
- **Operational Management:** Dedicated to optimizing business processes and championing operational excellence, Ali proactively identifies and resolves issues, boosting project workflow headcount by 380%. His work includes spearheading automation transformations that reduced manual tasks by 90% while maintaining 99.5% reporting accuracy. He monitors adherence to protocols across markets for consistent quality and implements measures for quick issue resolution, optimizing operations and client satisfaction.
- **Coaching and Training:** Ali possesses expertise in coaching and leadership, overseeing staff training and development. He consistently works on enhancing his coaching impact, as evidenced by his "Enhance Your Coaching Impact with Generative AI" certification.
- **Performance Management:** Responsible for comprehensive team performance reporting, Ali has implemented new reporting frameworks that provide critical insights, elevating operational efficiency. His efforts have consistently resulted in improved workflow efficiency by 40%, also utilizing systems like WorkSync for 100% real-time tracking of productivity and attendance.
- **SLA Management:** Ali has a proven track record of consistently achieving over 98% SLA compliance and successfully leading teams to meet SLA targets above 90%.

Key Accomplishments & Project Portfolio

Ali has a demonstrated ability to spearhead innovative projects that drive operational excellence through automation and strategic technological application:

- **AI-Powered Issue Identification (CS Resolver):** Built an AI Builder-powered system to accurately categorize customer issues, leading to 30-50% faster resolutions, 40-60% improved accuracy, and a 50-80% reduction in handling time.
- **Automated CV Tailoring:** Currently developing a system using Google Forms, Zapier,

and OpenAI API to automate CV tailoring, significantly reducing manual effort for job seekers.
- **Smart Operational Guidelines Search (DocFinder):** His team developed DocFinder using AI Builder and Power Automate to make operational guidelines easily accessible, resulting in 70-90% faster search times and 97% accuracy in document recommendations.
- **Automated Business Request Process (SmartFlow):** Fully automated business request submissions and approvals using Microsoft Forms, Power Automate, and SharePoint, cutting manual tasks by 20% and achieving 90% data accuracy.
- **Real-Time Agent Status System (Pulse Track):** His solution automated agent status updates using Microsoft Forms, Power Automate, and SharePoint, leading to 50-70% faster response times and 90% accuracy in status updates.

Technical Proficiencies

Ali is proficient in using a wide range of technology tools to build, automate, and implement solutions, including:

- **Microsoft Ecosystem:** Microsoft Forms, Power Automate, SharePoint, Power BI (particularly skilled for performance tracking and real-time monitoring), Microsoft Teams, Outlook, Power Apps (hands-on experience building robust solutions), Dataverse, AI Builder, Copilot.
- **Lark Suite:** Lark Task, Lark Automation, Lark Base, Lark Chat (experienced in creating Lark Dashboards for tracking and visibility).
- **AI/Automation Tools:** AI Builder (experience with AI-driven solutions), Zapier, OpenAI API, Python, SQL.
- **Other Tools:** Canva, Google Drive, Google Sheets, Excel.

Ali has accumulated four years of hands-on experience with these technical tools.
